

Flex

MAKING YOUR WEBSITE WORK FOR YOU

To support your digital marketing strategy, we can create an optimised microsite or landing page using our bespoke development platform, FWD Flex. Featuring customisable page components and UK-based hosting, your site will be designed to encourage optimum engagement and lead generation for your campaigns, events, and other multi-touch marketing efforts.

Why Choose FWD Flex?

Starting a fully outsourced marketing campaign? Need a single landing page without the fuss? With FWD Flex, small to medium websites and single landing pages can be built and hosted in our purpose-made Flex environment.

Plus, we'll manage everything for you, including software updates and content edits, to ensure a hassle-free experience from end to end. Choose FWD Flex for:

- A high-end, modern website
- Scalability when you need it
- Security and reliability
- GDPR compliance
- Multi-lingual options
- Minimal overhead costs

Flex templates launch with dozens of native content elements that we can use to create just about any type of website. Each content element is fully customisable and includes hundreds of design settings, which we will collaborate with you on to deliver a solution that perfectly matches your business's identity and goals.

Explore, customise, and take control of your digital future with FWD Flex today.

Whether you're running an event, revamping your multi-touch marketing efforts, or starting an entirely new campaign, our Flex templates make it easy to create a professional and captivating online presence.
